AN AGE OF IMPROVEMENT.
The Evening News of Kansas City, although not yet five years old, recognizes that this is an age of improvement. It has just moved into one of the handsomest newspaper buildings in the west; a building erected expressly for it and combining all the conveniences that time and experience can suggest or money secure. In addition, a new Potter perfecting press with a capacity of twenty-five thousand papers an hour, has been added to its mechanical outfit, enabling it to take front rank among the established papers of the country. Do you take a daily paper? Suppose in any event you try The Evening News. It will be sent you by mail every day except Sunday one year for two dollars. This is a special offer and is the lowest price that any daily newspaper has ever been sold for. While it is cheap in price it is in no sense of the word cheap in quality. The telegraph news is furnished by the United Press and thoroughly covers the world. Its short and pithy paragraphs of events happening in the three great states of Missouri, Kansas and Nebraska are alone worth more than the cost of the paper. You can send your order direct to The Evening News, 909 Wyandotte street, Kansas City, Mo., or hand to your postmaster. Don't wait. The publisher of the Baxter Springs News has made arrangements with The Evening News and the two papers will be sent one year for \$3. Leave orders at this office.

Quite Tasteful.
Puck.
"Oh, Sophy! I hear you kissed Mr. Rondo, the poet, in the conservatory last night."
"Um-m-m."
"Tell me what was it like?"
"Well, he has a very pronounced literary taste."

When Baby was sick, we gave her Castoria,
When she was a Child, she craved for Castoria,
When she became a Girl, she clung to Castoria,
When she had Children, she gave them Castoria.

Just So.
America.
Mrs. Gadabout: What sort of a person is Mrs. Mildman who has moved into the house next to you?
Mrs. Chaffer: I don't think much of her. Between you and me I think she is next door to an idiot.
Mrs. Gadabout (innocently): I think so too, my dear.

Is Consumption incurable.
Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable Consumptive. Begun taking Dr. King's New Discovery for Consumption, am now on my third bottle, and am able to oversee the work on my farm. It is the finest medicine ever made."
Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles 10c at Craig's drug store. 5

Five Strong Points of S. S. S.
1st. It is entirely vegetable, contains no minerals or poison of any kind and builds up the system from the first dose.
2d. It cures cancer of the skin. No other remedy has ever done it.
3d. It cures hereditary Blood Taint, even in the third and fourth generations. No other remedy has ever done it.
4th. It has never failed to eradicate Scrofula (or King's Evil) in all its forms from the system.
5th. It cures contagious blood poison in all its stages by eliminating the horrible virus from the system, thus giving relief from all the consequences of this bane of the human family.
"My blood had been so out of order during the summer of 1888 that I virtually had no health at all. I had no appetite; nothing I ate agreed with me. I was feeble, puny and always feeling bad. I had tried various remedies without receiving any benefit, until at length I commenced on Swift's Specific (S. S. S.) That medicine increased my weight from 155 to 177 pounds in a few months and made me as well and healthy as any man now living. S. S. S. is undoubtedly the greatest blood purifier to-day on the American continent."

IRL R. HICK'S WEATHER PROPHECY.
The following taken from the "storm chart" for 1890 of Rev. Irl R. Hicks of St. Louis will prove interesting to many. Here are his predictions for MARCH.
March will open cold and clear. About the 3d atmospheric changes will begin which precede all regular storms—it will turn warmer changing to easterly and southerly winds and soft, cirro-streaked sky, ending in rain and snow storms about the 4th, 5th and 6th. Cold will follow, moderating for scattering storms on the 10th and 11th. The middle storm period for the month is from the 14th to the 18th, with danger days about the 14th, 15th, 16th and 17th. Venus and Earth both bear upon this period. It is one which calls for prudence and care on sea and land. The same disturbing factors will intensify the elements on the 21st and 22d. From the 25th to the 31st there is an unusual combination of storm-producing causes. Blizzards and snow blockades need not surprise to the north, nor terrific rains, floods, hurricanes and tornadoes southward. The month will end cold. Storms with icebergs and shocks in many places during March storm periods.
